Fifth-Avenue Hotel.

NEW YORK, June 2.-Ex-President Harrison passed a quiet day to-day. He remained in the Fifth-avenue Hotel until 4 o'clock in the afternoon, when he drove to the Hotel New Netherland and dined with his daughter, Mrs. McKee. He returned to the Fifth-avenue Hotel at 9 o'clock and re-

tired an hour later. Governor Mckinley Starts Home. NEW YORK, June 2.-Governor McKinley, of Ohio, left the city on the Southwestern limited at 1 o'clock this afternoon He was accompanied by his wife. They will go direct to Canton, O. Abner McKin-ley, Governor McKinley's brother, who was to have returned with the Governor, de-cided at the last moment to remain here a few days longer.

but none started to the rescue, and with a despairing cry the girl sank beneath the waves while several thousand persons on the board walk and the beach looked on. Robert Brady, a brother of bath house keeper Joseph Brady, heard the woman's last shriek, and, throwing off his coat, dashed in to Thompson's assistance, reaching him as he was sinking for the last time. It was a brave rescue, and Brady is the hero of the hour. Miss Crogle's body has not yet been recovered. She came here three weeks ago on a visit, and had expected to return home to-night. James Farley, a relative of Miss Grogle, lodged a complaint against Thompson to-night, charging him with criminal negligence might, charging him with criminal negligence

in taking the unfortunate young woman too far from shore. He was arrested and at the preliminary hearing said that his real name is Crawford and that he is not an expert swimmer. He was held without bail to await the result of the inquest.
It is asserted by witnesses to the tragedy that it was the result of the recent build ing of a jetty at the point where the drowning occurred. The presence of the jetty has caused the waves to wash a deep hole in the sand at its outer end making a precipitious step-off of great depth in comparatively shallow water. A man with two children narrowly escaped drowning in the place during the morning hour, their resuce being effected only by the extraordinary and timely exertions of some bathers who were in the vicinity.

WORTHLESS HUSBAND KILLED.

Tried to Enter His Wife's House and Was Shot Dead.

WASHINGTON, June 2.-A Times special from Fairfax Courthouse, Va., reports the murder there, to-day, of John R. Harmon, aged fifty, by his wife, Mary Harmon, eight years younger. The murdered man is described as being a worthless fellow, who has been living apart from his wife for some time. To-day he called at the house, and, talking through a window, asked her to again live with him, but she refused. He then attempted to get into the house through the window, when she picked up a gun and fired. Mrs. Harmon asserts that she did not know the gun was loaded, and took it only for the purpose of frightening her husband off. She surrendererd herself, and was locked in jail. The woman has been supporting her eight children since her separation from her husband.

FRIEND OF MR. DOLE

BE ONLY SHORT LIVED.

AYS THE HAWAIIAN REPUBLIC CAN

If the United States Do Not Annex the Islands Soon the Japanese Government Will.

OMAHA, Neb., June 2.-Major Mortimer Higley, of Cedar Rapids, Ia., is en route from Hawaii. Higley is an intimate friend of President Dole, and has been in the republic some time, and asserts that the life of the present administration is limited unless some other power comes to its rescue. He says they have a thoroughly organized republic in every part, but the more intelligent class realize that it is a provisional one, necessarily. The sentiment in favor of annexation is strong. The most kindly feelings are cherished towards the United States among the natives, as well as the rest of the population.

"I predict," says he, "that if the United States does not annex the islands Japan will. You know what the effect of the late war was on Japan. It made her jubilant and self-confident. She has 40,000 citizens on the islands who have settled there; besides the Japanese are restless under the Hawaiian government because the government does not allow the Orientals to participate in public affairs. The rest of the population, however, is allowed to vote, with some property and educational limitations, "Yes, I think that if the United States does not take control of these islands during the course of the next administra-tion Japan will, but I think the Hawaiians realize the complexity of the problem and are in favor of coming in as a Territory, and not as a State. President Dole, of the republic, told me that he is in favor of annexation, for the republic must have the support of a strong power, and many roy-alists are also, including Cummings, the leader of the rebellion, who is now under \$30,000 bonds. The English guardian of Princess Kaiulani, who has been a pronounced royalist, has lately expressed himself to the effect that annexation is the only salvation for the islands. In the United States we have many Hawaiian exlies. They are unanimously in favor of an-nexation, as it would result in the restoration of their rights."

THE DUNKARD GATHERING.

Greatest Crowd Ever Seen at Decatur Arrived Yesterday.

DECATUR, Ill., June 2.-The largest crowd ever seen in Decatur was here to-day on account of the German Baptist (Dunkard) meeting. Special trains were run on ail roads. Oakland Park was packed all day. Twelve thousand people ate at the dining hall there. The tabernacle, seating 6,500, was crowded at three services. Sermons were preached by Elder I. P. Trout, of Trotwood, O.; Elder S. Z. Sharp, of Mc-Pherson, Kan., and Elder J. M. Mohler, of Decatur.

CAUSE OF COLIMA WRECK.

Bad Stowage of the Lumber, Which Shifted in a Storm.

COLON, Colombia, June 2.-Advices received here as to the manner of the wreck of the steamship Colima say that a heavy sea struck her, and the large deck load of lumber and cargo shifted, the vessel being overturned. Bad stowage is reported to be the cause of the disaster. Twenty-one persons are reported saved and 195 lost.

The Overloading Disputed. SAN FRANCISCO, June 2 .- The condition of the cargo of the Colima when she left Mazatlan is an important one in view of the telegrams printed yesterday. In these dispatches, from three different sources. comes the statements that the cargo of the Colima shifted and that the steamer was top heavy because of the deck load. These statements come from survivors, who related them on the San Juan and at Mazatlan; from Mazanillo, where some of the survivors remain, and from information given to George H. Herbert, manager of the Manzanillo & Colima road, who has sent much of the news of the wreck by way of the City of Mexico. The question is, was the loss of the Colima bue to bad stowing of cargo and to a deck load too great for the steamer to bear in heavy

Alexander Center, the general agent of the Pacific Mail Steamship Company in this city, said positively that he does not believe the statement that the cargo had shifted during the gale, and he declared that the Colima was loaded in the best possible manner, and was anything but overloaded when she passed out of the harbor of San Francisco on May 18. Mr. Center denied that the Colima carried dynamite, as reported, but said there was a quantity of gunpowder on board, which was stored in the magazine.

Will Inspect Ships' Cargo.

island, where they will be bathed and their effects disinfected. CITY OF MEXICO, June 2.- The Mexican government will henceforth take strict cognizance of the manner in which all ships touching at Mexican ports are loaded. The following official dispatch was received

> to-day at the War Department from the captain of the port of Acapulco: "Secretary of War and Navy, Mexico-The Colima disaster was caused by the heavy deck cargo. As all of the ships of the Pacific Mail Company are loaded in this manner, and other Mexican boats have the same custom, I beg of you for future instruction on this point Orders will accordingly be issued, probably on Monday, to all principal ports on both coasts to detain in the future all national or foreign boats at Mexican ports in which the cargo is not properly loaded entirely in the hold. The ships will be held at the ports, the facts being reported to the War and Navy Departments, until the cargo is restowed or the cargo other-

The Drought Followed by Severe Storms in the West.

HOUSTON, Tex., June 2 .- From Paint Rock, Concho county, comes an account of an awful hailstorm. The stones were of enormous size and when one of them struck a sheep on the head, it knocked out its brains. Many sheep were killed or wounded, Several persons sustained severe injuries. being caught by the storm. Crops were atterly destroyed and large limbs were torn from trees. There is not a windowlight left in the neighborhood. The storm was of short duration and covered only a small

A Flood in Nebraska. M'COOK, Neb., June 2.-As a result of lake burst its bank about 6 o'clock this morning at the place where the Burlington railroad tracks cross the embankment of the lake and a heavy body of water is now rushing down the Medicine valley towards the Republican river. A number of freight cars on the tracks were precipitated into the Medicine valley below and the fine Curtis roller mill is in danger of being destroyed. The Burlington loss alone will reach \$3,000. The loss to stock above and below the dam is large. It has been raining all day and the water has been rising in the lake so much apprehension is still felt, not only for the mill, but for other property. With the continued rain and the immense volume of water now rushing down the Medicine valley the dam and the Burlington railroad bridge at Cambridge are sure to go out between midnight and 2 or 3 o'clock in the morning. A special from Curtis, Neb., says: The bursting of the Curtis lake here to-day has seriously menaced property and possibly life in the Medicine valley to-day. The grade is torn up, freight cars strewn along the Medicine bottom and the fine roller

mills are ruined. Curtis lake is nearly emptya nd a flood of water is running down the Medicine valley, carrying destruction in its mad rush. Four of the five yard tracks besides the main line are torn up and gone, while a train of freight cars reach over the bank and are swiming in the flood. Twenty thousand doll rs' damage is done here and other points to hear from. The fine alfalfa meadows just below the city are ruined and homes all along the valley de-

a Serious Affair. SAN FRANCISCO, June 2.-The police are still looking for the murderer of Miss Harrington, whose mutilated body was found in her house on Ellis street yesterday. The woman had been stabbed and

beaten to death by some blunt instrument which has not yet been found. Other occupants of the house told the police of an elderly man who called frequently on Miss Harrington and took her out driving. In the murdered woman's room was found a photograph of ex-State Senator L. W Buck, one of the most prominent fruitgrowers of the State. The people of the house identified the picture of Buck as that of the man who called to see Miss Harrington. The police sent to Senator Buck's house in Oakland and requested him to come to San Francisco and tell what he knew of the case. Mr. Buck started to drive to the station, but on the way was thrown from his buggy and seriously injured. He is suffering from concussion of the brain and may not recover. Senator Buck was at his home in Oakland yesterday between the hours of 11 and 3 o'clock and it is known the murder was committed between 11 and 1 o'clock. A young Japanese, who had engaged a room in the house, has been detained pending an investigation, but it is not believed he had anything to do with the murder. Ex-Senator Buck's physicians said to night the injured man could not possibly survive and his death is only a question of a few hours. When pitched from the buggy Mr. Buck struck the ground on his head, fracturing his skull. While the police will not say definitely that they suspect Senator Buck of the murder, their actions lead to the belief they think he knows some-thing about it. The detectives have investigated the statement made by Senator Buck's family that he was at home at the time the murder was committed. When questioned as to the accuracy of statement the detective who made the in-

Fiscal Year.

WASHINGTON, June 2.-Treasury officials are now confident that the close of the fiscal year, one month hence, will show a the deficit further reduced to at least \$44.-000,000. The month of July, however, is likely to see the deficit increased by at least \$10,000,000, as that month's interest payments will aggregate about \$7,000,000. Disbursements in every branch of the gov-ernment are usually much heavier in July than in any other months, so that without

ENGLISH AUTHORESS AND PRINTER SAYS CAPITAL SITS IN THE WHITE HOUSE AND ON THE BENCH.

> Believes the Country Is Under the Heel of a Worse Enemy than Slavery-Debs Thinks the Same.

SPRINGFIELD, Ill., June 2.-Gov. John P. Altgeld is of the belief that the United States Supreme Court has established a dangerous precedent in remanding Eugene V. Debs and his friends to jail. He expressed himself in a very caustic manner to-day regarding the decision; accuses the court of trampling on the rights of the people and being the tool of monopoly. He gives his views for publication in a signed

article, in which he says, in part: "This decision marks a turning point in our history, for it establishes a new form of government, never before heard of among men; that is, government by injunction. The provisions of the Constitution that no man shall be deprived of his liberty without a trial by an impartial jury is practically wiped out by this decision of the United States Supreme Court, and the theory that ours was exclusively a government of law is now at an end, for every community is now subject to obey any whim or caprice which any federal judge may promulgate. And if federal judges can do this, then it will not be long until State judges will follow this example.

"For over a century our government moved along the lines of the Constitution and we became great and powerful. Life and property were protected and the law. was enforced. Now we have made a departure; the bulwark of liberty has been undermined; trial by jury has been stricken

"For a number of years it has been remarked that the decisions of the United States courts were nearly always in favor of corporations. Then it was noticed that no man could be appointed to federal judgeships unless he was satisfactory to those interests. Over a year ago the New York World talked about a 'packed Supreme Court,' and that court has, within a few days, rendered two decisions which unfortunately tend to confirm this charge. A week ago it did violence to the Constitution and laws of the land by holding that the government had no power to tax the rich of this country. Now, it has stricken down trial by jury and has established 'government by injunction. "Forty years ago the slave power predominated; to-day it is capitalists. The Ameri-

them again? Many say yes, but they have not reflected that the crushing force which now confronts them is greaten than was ever the slave power. "Capital sits in the White House and legislates in the Capitol. The courts of justice are its ministers, and legislatures are its lackeys, and the whole machinery of fashionable society is its handmaid. Just see what a brood of evils have sprung from the power of capitalism since 1890.

ACCIDENTS ON BOARD

LA BOURGOGNE LOSES A PASSENGER AND A SEAMAN ON THE TRIP.

John Lawrence Went Overboard in an Attempt to Recapture His Hat-Other Vessel News. NEW YORK, June 2.- The French line steamship La Bourgogne, Captain Leboeuf,

from Havre, May 25, came into port this morning with all her flags at half mast, on account of the death of Secretary Gresham. Her officers reported two accidents during the voyage. Shortly before the Bourgogne sailed from Havre two saloon cabin passengers came on board. Their names do not appear on the ship's printed passenger list. Both were young men named Lawrence. On the morning of May 27 John Lawrence, aged twenty-six, was promenading the saloon deck on the port side. He leaned over the rail and his hat fell overboard. In attempting to regain it he lost his balance and fell into the sea. An alarm was instantly given and the ship's engines were stopped. A boat was lowered and proceeded in search of the man, but he was never seen again. He probably got foul of the propeller and was killed. The accident east a gloom over the saloon passengers during the remainder of the voyage. Mr. Lawrence's brother would not see any one on his arrival at quarantine. His fellow-passengers stated that he was great-

ly grieved over the loss of his brother. Flushing, L. I., is believed to be the home of the young men. The loss of Mr. Lawrence was soon fol lowed by another fatality. On the morning of May 31 a seaman named August Guillard, while attending to his duties on the hurricane deck, fell from the rail The cry "man overboard" was promptly given by a passenger to the officer on the bridge. The engines were again stopped and a lifeboat was quickly manned and lowered. Every effort was made to locate

the man, but nothing of him was seen except his cap, which was picked up by one of the boat's crew. For the third time La Bourgogne was stopped on the 1st instant, at 7:40 p. m. when off the Davis south shoal (Nantucket), the lookout having sighted a steamer fly ing signals of distress. The course of the steamship was immediately altered and she bore down to the vessel, which was found to be the British steamer Enchantress, Captain Ritchie, from Mediterranean ports for New York. The captain reported that the cylinder head was broken, and that the accident, which was beyond repair, happened in the early morning hours. He requested the commander of the Bourgogne to send immediate assistance on reaching port. The disabled steamer was in no danger. She had her sails set and was heading to the southward, with a light breeze from west southwest. The Enchantress

sailed from Trieste, April 26, via Palermo, May 10. She registers 1,699 tons. FLUSHING, L. I., June 2.-John Wilson Lawrence, who was lost at sea from the steamship La Bourgogne, was the son of Walter B. Lawrence, a prominent stock broker, and was associated with his father in business here and in New York city. He graduated from Harvard in 1891, and was a member of the Harvard and Knickerbocker Clubs, of New York. The Lawrence family

Grecian Prince in Quarantine. NEW YORK, June 2.-The Prince line steamship Grecian Prince arrived at quarantine this afternoon from Santos and Rio de Janeiro with a full cargo of coffee. Capt. Miller reported that he left Santos May 2 and Rio de Janeiro on the 11th. At the latter port two of the crew were taken with yellow fever and sent to the hospital on shore. There was no other sickness during the voyage. Deputy Health Officer Sanborn boarded the steamer, and on investigation deemed it prudent to detain her for disin-fection and cleansing. The crew will be transferred to-morrow morning to Hoffman

MISS GROGLE DROWNED.

Got Beyond Her Depth While Bathing at Atlantic City.

ATLANTIC CITY, June 2.- The first drowning accident on the bathing grounds for over a year occurred this afternoon, at the foot of Illinois avenue. Charles R. Thompson, of Cleveland, O., and Miss Jennie Crogle, aged twenty-one, of Ninth and Dickinson streets, Philadelphia, were in the water. Thompson took the young woman a dangerous distance out from the shore to give her swimming lessons. They were caught in a whirlpool near the boat jetty, and, becoming separated, cried for help, There were scores of bathers on the sound, | wise arranged.

deficit of not more than \$41,000,000, and possibly not more than \$43,000,000, which is at least \$5,000,000 less than was predicted only a few weeks ago, and \$3,000,000 or \$4,000,000 less than the present figures. It is shown that the pension payments during June will be at least \$2,500,000 less than for May, and that the payments on account of interest will also be reduced \$1,500,000. With an ncrease from internal revenue of \$3,000,000 on account of receipts from special liquor, tobacco and oleomargarine licenses, which must be paid before July 1, and very ma-terial reductions in pension and interest payments, it is confidently expected that next month will show a small surplus, with

MISS FAITHFUL DEAD

HONORED BY THE QUEEN.

Justice Sir James Bacon Dies, Aged

Ninety-Seven-George W. Brown,

Inventor of the Corn Planter.

LONDON, June 3.—The Times announces he death of Emily Faithful.

Miss Emily Faithful was born in 1835.

She was presented at the English court in

her twenty-first year. Becoming interested

in the condition of women she collected a

band of female compositors and in 1860,

founded a typographical establishment in

which women as compositors were em-

ployed, and for which she obtained the

approval of Queen Victoria, who appointed

Miss Faithful printer and publisher in

ordinary to her Majesty. In May, 1863,

Miss Faithful started a monthly publication

called the Victoria Magazine, in which

for eighteen years the claims of women

to remunerative employment were carnest-

ly set forth. In 1868 she printed a novel

entitled "Change upon Change." She achieved a marked success as a lecturer. In 1872, Miss Faithfull visited the United States. After a third tour in America, in 1882-3, she published a book entitled "Three Visits to America," containing vivid descriptions of various femining industries

scriptions of various feminine industries

and life as she found it among the Mor-

mons in Salt Lake City, Colorado, Cali-fornia, In commemoration of thirty years

dedicated to the interests of her sex, Miss

Faithful received in 1888 an engraving of

her Majesty, which was sent her by the

Queen, bearing an inscription in her own handwriting, and followed by a civil-

Rt. Hon. Sir James Bacon.

LONDON, June 2.- The Rt Hon. Sir James

Sir James was born in 1798 and was the

oldest son of the late Mr. James Bacon,

barrister at law of the Middle Temple. He

was called to the bar at Gray's Inn in

1827, and afterwards became a member of

Lincoln's Inn, of which he was a member

at the time of his decease. He obtained a

silk gown in 1846, and in 1868 was appointed

commissioner of bankruptcy for the London district, and continued to hold that office

until the end of 1869, when he was appointed

chief judge in bankruptcy. In August, 1870,

he succeeded to the vice chancellorship va-

cated by Sir William Milbourne James,

and in 1875 was made a judge of the High

continued in active work up to November,

1886, when he resigned the vice chancellor-

ship. As a judge his sayings were often memorable and his judgment seldom re-

versed. Sir James Bacon was appointed a member of the Privy Council upon his re-

Consul Ballard Dead.

WASHINGTON, June 2.- The State De-

partment has been informed of the death

vesterday of William J. H. Ballard, United

States consul at Hull, England. No par-

ticulars were given in the dispatch an-nouncing the death. The vice consul took
